# NASCAR HALL OF FAME

Charlotte, NC

## THE TEAM

Architect: LS3P Associates, Ltd.  
 Design Architect: Pei, Cobb, Freed & Partners  
 Contractor: Turner-BE&K-Davis Construction (JV)

## PROJECT DETAILS

- Architectural precast wall panels designed to PCI MNL-117 standards
- 315,000 sq. ft. Hall of Fame & Museum
- 180,000 sq. ft. ballroom
- 34,580 sq. ft. of architectural precast
- Includes panels set on a radius, at an angle, with tapered heights
- Cast Hall of Fame sign and stainless steel lettering into panels
- Cast in decorative recesses for lighting fixtures

## ARCHITECTURAL FINISHES

- Custom mix design
- Sandblasting
- Reveals at various depths

## SUSTAINABILITY HIGHLIGHTS

- Use of local regional materials
- Use of recycled content
- Manufacturing offsite allowed for reduction in laydown area and minimized site noise
